

COPPER TUBE MARKET INFORMATION - February 15, 2011

HD Supply

Plumbing Tube Comments:

Although there is concern globally that China will raise interest rates for their country, copper rallied to another record high on Monday, after a surprise jump in Chinese imports reinforced prospects for robust global demand. It appears these unprecedented cost levels will continue. All copper tube orders will be priced from Cerro Flow Products list price sheet, dated February 2, 2011.
